Day Two - Tuesday 28 March

Listen closely as you awaken and dress as you see the sunrise in at the Valley Temple of Chephren. You will hear the incredible sounds of the entire city being called to prayer. Open your door and listen – feel the energy of the spirits. Imagine yourself standing between the

paws of the Great Sphinx as you will be doing just that a little later on in the day! Today we start our tour with a very special private visit to the Giza Plateau. Private time means that there will be nobody else there except our group. You will explore one of the most awesome wonders of the world – The Pyramids of the Giza Plateau. Our guide, who is an encyclopedia of Egyptology, will share his knowledge around various controversial theories surrounding these amazing structures and much more.

In the afternoon we will have a special private visit inside the Great Pyramid with a culminating initiation in the King's Chamber. Here we connect our life story with the story of those who have come before us and those who will come after as we embrace the opportunity to meditate in the energy of the Kings Chamber.

This afternoon we travel by luxury bus to Sakkara, where we visit the oldest Pyramid, the Step Pyramid of Djoser, and its temple of sound and healing. Sakkara was masterminded by Imhotep, the High Priest, Vizier and architect to King Djoser during Dynasty III. This magnificent site includes other Old Kingdom tombs, among them those that hold the earliest known hieroglyphs – the Pyramid texts that were the model for the “Egyptian Book of the Dead. “

Later this evening we will take a short flight to Aswan and on arrival make our way to the “AFANDINA” our Dahabiya, a private small sailing cruise boat that we will call home as we sail the Nile.

Day Four - Thursday 30 March

This morning we will drive into the Sahara desert to the magnificent temple of Abu Simbel built by Ramses II. It resembles both ancient and modern engineering and is one of the most impressive

archaeological sites in all of Egypt. The larger temple celebrates Ramses II, one of Egypt's great Pharaohs and the smaller one celebrates his wife Queen Nefertari. An amazing feat of engineering was attempted and achieved as the temples were relocated 180m further inland due to the rising water levels of Lake Nasser.

Day Six - Saturday 01 April

In our private sunrise meditation and ritual we return to the source of all, the Great Mother, to receive the blessings of Isis at her beautiful island, the **Temple of Philae**. This isle represents a fusion of three great civilisations – Egyptian, Greek and Roman. The presence of Isis is palpable in the inner sanctum, the Holy of Holies of her temple.

We will then return to AFANDINA, and as we enjoy our breakfast we will sail the Nile to **Kom Ombo**, where we visit the only dual temple in Egypt. This dramatic temple poised between the edge of the river and encroaching desert sand was dedicated to two gods – Sobek the crocodile god of strength, fortitude, fertility and rebirth, and Horus the hawk-headed son of Isis and Osiris. The duality of light/dark ,

yin/yang, conscious/unconscious is apparent in this ancient site. One of the most powerful pieces **in Kom Ombo** is the Seat of Neutrality, which is placed on the exact centerline between the parts of the temple that are dedicated to Horus/Sobek and light/dark. We will dock near **Kom Ombo** for the night.

Day Seven - Sunday 02 April

Today as we will sail to **Edfu** take time to enjoy the daily activity that you see along the banks of the Nile as locals embrace the simple ways of life that have been practiced for many years, as far back as biblical times.

In the afternoon we visit **Edfu** and the **Temple of Horus**, one of the most beautifully preserved in Egypt. When you approach the temple complex, you will become aware of its enormous dimensions, with a vast courtyard, a forest of towering columns and high ceilings. The side chambers of the temple of Horus show the complexity of ancient rites. They include a healing chamber, a perfumery and the singers rooms. One chamber, called the House of Life, stored all of the sacred texts used in seasonal and daily rituals. Horus is associated with higher vision and clarity. The eye of Hours greatly relates to his myth and power. The left eye represents the lunar, the moon, the feminine, and the intuitive. The right eye is connected to the solar, the masculine, the action, and the yang energy. Both are necessary for true power to exist. In a private session we will work with balancing the lunar the solar energies inside of us and awaken our intuitive centers to be able to experience a higher perspective.

Day Nine - Tuesday 04 April

Today we will continue sailing the Nile as we make our way from Esna to Luxor and the amazing city of Thebes.

In the afternoon we visit the magnificent **Karnak Temple**. Karnak is the biggest temple complex in Egypt – and a very special place. It is dedicated to the Gods Amun and Mut. As you enter, you will walk between a row of rams-headed sphinxes, which originally connected Karnak with Luxor Temple which is two miles away. Take some time to visit the sacred lake of Karnak, ask for purification and place your intention in your mind’s eye into the lake.

Outside the main halls is a small chapel dedicated to Sekhmet, her consort Ptah and their son Nefertu. Sekhmet is the lioness Goddess of compassion and courage. She is associated with feminine fire and healing through destruction. She is a renowned healer and known for her magic and ability to hunt down an imbalance at its origin. In a potent private initiation we will honour the Goddess and receive the gift of courage to be our authentic selves.

This evening we will pay a night visit to the **Temple of Luxor** and work with the brilliance of the human body. Here we are able to see that this temple is built like a human body – the outer layers represent the feet and as we move deeper into the temple, we move towards the head, where the holy of holies, the inner sanctuary is located. This is a wonderful place to focus on physical healing. As you walk through the body of this temple, notice how your body feels and re-member radiant health. Awaken the parts of you that are sleeping, activate divinity codes and turn on your inner light.

On the rooftop where Hathor priests and priestesses gathered for their celebrations thousands of years ago, we reconnect to our destinies. We then continue north to the temple at **Abydos**, dedicated to Osiris and housing the nine great beings (The Ennead). This temple rests next to and above the most ancient Osirion, one of the premier power places on the planet. It includes a more recent temple built by Seti I, which contains the most beautiful bas relief of any temple in Egypt.

Day Twelve - Friday 07 April

Today we will visit **Old Cairo** including St Sergi Church where the holy family was hidden while they were in Egypt. We also visit the

oldest Synagogue in Cairo and the Al Rafi'e Mosque, which had been commissioned, in an imitation Mamluk style, by the mother of Khedive Ismail, to serve as a grandiose tomb for herself and her descendants. Royals buried here include Ismail, Farouk (Egypt's last king), and the last shah of Iran. Chased out by Ayatollah Khomeini, he sought refuge in Egypt in 1979. When he died the next year, his casket was paraded through Cairo with Egypt's President Sadat and the former President Richard Nixon, leading the cortege.

We will then have time to relax over a traditional Egyptian meal where signature dishes such as "Kousharai" will be served before we head out to spend time exploring one of the most amazing streets in Islamic Cairo.

El-Moez Street is one of the oldest streets in Cairo, approximately one kilometer long (open air museum). It dates back to the Fatimid era and has almost all types of Islamic architecture decorated with Arabic calligraphy. It has recently been renovated and the best time to visit is upon sunset to get the most out of the experience to witness the lighting of the mosques and the skyline. It is breathtaking.

Later in the afternoon we will visit **Khan El Khalili Bazaar**, one of the oldest shopping districts in the world. The Khan el Khalili, is like going back to the time of Ali Baba and Aladdin. Merchants have been trading on this site since at least the 14th century. In 1384 an emir named Al Kahlili built a great Khan here, a three-story hostelry intended to accommodate travelling merchants and their wares. Buyers visited the khan for the goods sold in the merchant caravans. and then the selling and bartering eventually spread to the streets. You will love wandering the streets where there is everything conceivable to buy, with lots of teahouses and don't forget to check out the great stone gateways that date back to the 1500s.
